

SATQUERY AI — EARTH OBSERVATION REPORT

Remote Sensing Inspection & Telemetry

Report ID:	2b4c71b1ddb4aaf	Generated:	2026-09-07T18:37:47
Confidence:	Medium (0.65)	Imagery Count:	2 scene(s)
Visual Query:	Execute optical and SAR radar fusion to detect metallic vessels and corner-reflecting infrastructure.	Evidence Type:	sar_fusion

Executive Summary & Findings

{ "summary": "The fused optical and SAR observations clearly delineate a bustling urban port environment, successfully identifying numerous metallic vessels and extensive corner-reflecting infrastructure. SAR backscatter strongly corroborates optical features, highlighting high-reflectivity objects against the specularly reflecting water bodies, enabling all-weather maritime and structural monitoring.", "detailed_analysis": { "scene_overview": "This multi-sensor capture presents a vibrant coastal city with a large, active port. The optical imagery provides detailed multi-spectral reflectance showing urban sprawl, dense building structures, roads, and numerous ships docked and in transit across the deep blue water. The SAR microwave backscatter image complements this by emphasizing dielectric properties and surface geometry, revealing strong returns from urban structures and metallic vessels, while water bodies appear as areas of low backscatter.", "land_cover": "The fused LULC classification identifies dense urban built

Visual Evidence Grounding

Multi-Angle Satellite Telemetry

Scene Overview	{ "summary": "The fused optical and SAR observations clearly delineate a bustling urban port environment, successfully identifying numerous metallic vessels and extensive corner-reflecting infrastructure. SAR backscatter strongly corroborates optical features, highlighting high-reflectivity objects against the specularly reflecting water bodies, enabling all-weather maritime and structural monitoring.", "detailed_analysis": { "scene_overview": "This multi-sensor capture presents a vibrant coastal city with a large, active port. Land Cover (LULC)	General remote sensing scene
Spatial Patterns	Standard geographic layout
Spectral Indicators	Visible optical spectrum
Risk & Exposure	No critical hazards detected

Execution Trace & Telemetry Audit

Stage	Status	Detail	Latency
Compatibility Check	OK	Validated 2 image(s) for intent: fusion	0.0ms
Routing	OK	Intent: fusion → Selected Specialist: Optical+SAR Fusion	0.0ms
Analyzing	OK	Processed by Optical-SAR Fusion (Gemini 2.5 Flash)	14691.0ms
Building Evidence	OK	Rendered Optical+SAR fusion overlay: None	522.0ms
Confidence Scoring	OK	Raw: 0.65 → Medium (0.65)	0.0ms
